EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2024-2028	B.Tech AI and Data Science	University School of Automation and Robotics (USAR), GGSIPU	6.99(till 2nd year)
2024	CBSE(XII)	BSM Public School, North West Delhi	70%
2022	CBSE(X)	Vivekanand International Sr. Sec. School, East Delhi	82%

PROFESSIONAL SUMMARY

Aspiring AI and Data Science engineer with hands-on experience in Machine Learning, Web Development, and Data Analytics. Proficient in Python, Flask, HTML, CSS, JavaScript, Pandas, NumPy, and Scikit-learn. Developed projects ranging from machine learning-based prediction systems to interactive web applications, gaining practical exposure to data processing, model integration, backend development with Flask, and responsive frontend design. Eager to apply technical skills and problem-solving abilities to real-world challenges and continuously improving technical skills through projects and certifications.

PROJECTS

• CareerLens - AI Placement Predictor

2026

Machine Learning Based Web Application

Github

- Developed a Machine Learning model to predict student academic performance using historical educational data.
- Performed data preprocessing and feature engineering using Pandas and NumPy.
- Trained and evaluated models using Scikit-learn.
- Integrated trained model with Flask backend for real-time predictions.
- Designed frontend using HTML, CSS and JavaScript.
- Implemented complete ML pipeline from training to deployment.

• BikeX - AI-Powered Bike Customization Platform

2026

Web Application Development

Github

- Developed an interactive bike customization platform allowing users to personalize bike components and visualize modifications.
- Designed responsive frontend using HTML, CSS and JavaScript for seamless user experience.
- Implemented dynamic customization features including color, accessories and component selection.
- Optimized user experience for desktop and mobile devices.

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, SQL, JavaScript
- **Machine Learning:** Scikit-learn, Regression, Classification, Data Preprocessing, Model Evaluation
- **Data Analysis:** Pandas, NumPy, Matplotlib
- **Web Development:** Flask, HTML, CSS, JavaScript
- **Tools:** GitHub, VS Code, Jupyter Notebook
- **Operating Systems:** Windows, OS

RELEVANT COURSEWORK

- **Core Subjects:** Data Structures and Algorithms, Database Management Systems, Machine Learning, Computer Networks, Operating Systems, Software Engineering, Theory of Computation, Data Warehousing and Mining, Artificial Intelligence

CERTIFICATIONS

- IBM SkillsBuild - Unleashing the Power of AI Agents
- IBM SkillsBuild - The Rise of Multiagent Systems
- IBM SkillsBuild - Introduction to Retrieval-Augmented Generation
- IBM SkillsBuild - Make Agentic AI Work for You

POSITIONS OF RESPONSIBILITY

- **Secretary,** Helpful Hands
- **CR,** 2nd year

Currently

2025-2026

ACHIEVEMENTS

- Completed multiple IBM SkillsBuild learning pathways in Artificial Intelligence and Machine Learning.
- Developed and deployed Machine Learning based web applications.
- Hands-on experience in Python, Flask, Data Analysis and Machine Learning workflows.
